

AMY GREEN

SENIOR INTERIOR DESIGNER | PROJECT LEADER | ENTREPRENEUR

206-683-0665 • amy@kikainteriors.com • Seattle, WA

PROFILE

Senior interior designer and business owner with more than two decades of experience delivering residential, multifamily, hospitality, medical and municipal projects from concept through installation. Combines strong design judgment with hands-on project management, construction documentation, permitting, procurement, consultant coordination and client leadership. Known for practical problem-solving, clear communication and the ability to move complex projects forward without losing sight of aesthetics, budget or schedule.

PROFESSIONAL EXPERIENCE

KIKA Interiors | Principal Designer / Owner

2014 - Present • Seattle, WA

- Lead residential design engagements and manage client relationships, design direction, budgets, schedules and project delivery.
- Execute all phases of design including programming, schematic design, space planning, finish and material selection, lighting, custom millwork, furniture specification and installation.
- Produce and coordinate construction drawings, permit applications, specifications, consultant input and construction administration; work directly with contractors and trades to resolve field conditions.
- Manage procurement from specifications and budgets through ordering, shipment tracking, receiving coordination and final installation.

KIKA Flower Farm | Principal / Owner

2021 - 2024 • Mercer Island, WA

- Built and operated a flower-farming business from the ground up, applying entrepreneurial leadership, brand development, customer relations, operations and hands-on problem solving.
- Developed strong working relationships with employees, customers, vendors and community partners while managing the demands of a seasonal, detail-intensive business.

Two9 Design | Senior Designer

2011 - 2014 • Seattle, WA

- Designed multifamily projects and contributed to space planning, finish selection, documentation, client presentations and project coordination.
- Notable work included Stackhouse, Element 42 and Waterscape at Juanita Village.

Degen & Degen | Project Manager

2007 - 2009 • Seattle, WA

- Served as lead designer/project manager for hospitality and multifamily work, including a 325-room hotel renovation with restaurant and spa.
- Prepared construction documents and permit applications, coordinated MEP consultants, administered construction and supervised FF&E installation through opening.
- Ice Spa project in Anchorage was featured in Hospitality Design Magazine.

Weber + Thompson | Designer / Job Captain

2004 - 2007 • Seattle, WA

- Worked on multifamily and high-rise projects, developing expertise in unit planning, construction documents and project coordination.
- Notable work included Madison Tower and Spa at Hotel 1000.

ALSC Architects | Intern / Junior Designer

2001 - 2003 • Spokane, WA

- Supported education and municipal projects including Three Rivers Convention Center, Gonzaga Arena and a fire training facility.
